List of Information Needs for Corps 404 Permit

Information Requested	EIR/EIS	Corps 4345	404(b)(1) Analysis	Comments			
General Information							
Project Description	Ch 3	Х					
Activities requiring a permit		Х	Х				
Basic and Overall Project Purpose			X				
Need for proposed project	Ch 2		Х				
Dimensions of structures/fills and construction materials		X					
Type, composition and quantity of material to be dredged		Х					
Method of dredging, equipment used, transport, and disposal		Х					
Structure constructed/work done in navigable waters		Х					
Methods and equipment – in water		Х					
Linear distance of impacted waterways		Х					
Related activities to be developed as a result of proposed project	Ch 13, Ch 30						
Construction dates		Х					
Reasons for discharge of dredge or fill	Ch 3		X				
Type of material being discharged and amount in cu yds			X				
Source of material							
Surface area of wetlands or other waters proposed to			X				
be filled (type of water and liner distance)							
Means by which discharge is proposed to be done							
Dredged material discharged at an upland site		Х					
(description and map, steps to avoid runoff)							
For impoundment structures, information to show							
structure complies with DSOD criteria							
Environmental Effects							
Description of specific area that listed species may be affected	Ch 11, Ch 12		X				
Description of neighboring land uses (water supplies, recreation, fisheries, aesthetics)	Ch 13, Ch 15, Ch 17, Ch 20, Ch 14, Ch 5, Ch 6, Ch 7		X				
Description of listed species or critical habitat that may be affected	Ch 11, Ch 12		Х				
Description of manner in which the action may affect listed species or critical habitat and an analysis of cumulative impacts	Ch 11, Ch 12		X				
Impacts to substrate	Ch 8		X				

Impacts to suspended particulates and turbidity	Ch 8		Х	
Impacts to water quality – contaminants	Ch 8		Х	
Hydrodynamic impacts (tidal effects, circulation,	Ch 6		Х	
velocities, stratification)				
Description of existing intakes and discharges in the	Ch 6		Х	
vicinity, including rate of diversion/discharge and				
chemical characteristics of discharge				
Impacts to salinity gradients	Ch 6		Х	
Bathymetric impacts	Ch 6		Х	
Impacts on sanctuaries and refuges			Х	
Impacts on wetlands			Х	
Impacts on mudflats			Х	
Impacts on vegetated shallows			Х	
Impacts on coral reefs			Х	
Impacts on riffle and pool complexes			Х	
Draft/Final Mitigation and Monitoring Plan	X		Х	
-mitigation location and design drawings				
-vegetation plans, target species to be planted				
-success criteria				
Draft/Final Operations and Management plan	Х		Х	
-proposed activities				
-long term funding and maintenance				
Avoidance and minimization measures	Х		Х	
Amount, type and location of proposed compensatory	Х		Х	
mitigation				
Other	Regulatory	Complia	псе	
Cultural resources report to initiate Section 106	Ch 18	Х	X	
consultation				
Description of compliance with ESA		Х		
Description of compliance with Executive Orders		Х		
related to floodplain management and protection of				
wetlands				
Section 401 compliance		Х		
Section 408 compliance		Х		
Alt	ernatives E	valuation		
Initial Alternatives			Х	
Alternatives selected for further screening			Х	
Alternatives selected for inclusion in 404(b)(1) analysis			Х
